WORK EXPERIENCE

Freelance, Tyumen – HTML/CSS developer

August 2018 – October 2018

I have experience in freelance. Some of the orders I took were: adding functionality to a website for children's parties, as well as changing a landing page for the sale of stretch ceilings from Russian into English.

PERSONAL PROJECTS

My personal website – kuvshanov.me

I have a personal website. There I post my educational and personal projects, as well as projects for university and hackathons.

React project: <https://github.com/romankuvshanov/lastfm-clone-react>

Vue project: <https://github.com/romankuvshanov/vue-todo>

HTML/CSS portfolio:

kuvshanov.me/articles/HTML_CSS_coder/files/portfolio/portfolio

JS/CSS/HTML project:

<https://github.com/romankuvshanov/playwithgptru.ml>

I also have a profile on **GitHub**: github.com/romankuvshanov

EDUCATION

Tyumen State University, Bachelor in “Applied Informatics” – 3rd year

September 2019 – August 2024

Tensor, Frontend school

September 2022 – December 2022

I have learned React and wrote the final project using that technology
